## **Taranis Submits Mine Plan for Thor**

**Estes Park, Colorado, July 22, 2019** – Taranis Resources Inc. (“Taranis” or the “Company”) [TSX.V: TRO, OTCQB: TNREF] is pleased to release an update on the progress of Phase 2 mine permitting activity for its 100% owned Thor project.

Taranis has submitted its application for Mines Act and Environmental Management Act Permits for the Thor 10,000 tonne bulk sample program. Major application sections include:

- Project overview including mineral Resources and stockpile processing tonnages and grades
- Environmental baseline information including water chemistry, soil chemistry and environmental characteristics of ore types
- Detailed metallurgical studies, characteristics of the deposit
- Hydrology, hydrometrics, water basin analysis and climatology
- Wildlife habitat studies and mitigation plans, including mountain caribou
- Mine plan: processing, site layout and equipment
- Mine operating management plan, including environmental management plans
- Discharge and environmental monitoring requirements
- Reclamation planning

The application will now be screened by Ministry representatives for completeness. John Gardiner, CEO, states “This application encompasses 13 years of data collected at Thor, from initial exploration drilling, the gold pilot plant, through into mine development. Thor is a high-grade, near-surface Resource on the cusp of becoming a producing mine, and Taranis shareholders own it 100%”.

### **About Taranis Resources Inc.**

Taranis is an exploration company focused on the development of its 100%-owned Thor project in southeast British Columbia. The Company has a clear growth strategy that involves the ongoing growth of the mineral Resource at Thor, and commercial mining of the deposit. For additional information on Taranis or its Thor project, please visit our website at [www.taranisresources.com](http://www.taranisresources.com).

Taranis currently has 66,056,042 shares issued and outstanding (77,289,708 shares on a fully-diluted basis).
